

TECHNICAL SHEET VINTAGE 2013

2013 is a particular vintage with low yields due to bad weather conditions during flowering.

Picking was done at brisk pace, with careful monitoring, following the grapes' evolution.

On the whole, we are not unhappy with the crop, which is of good quality, despite all the various challenges.

Like last year, the sorting machines proved to be very useful

Last but not least: it's the first vintage blended by Eric BOISSENOT who succeeded to his father after 30 years' loyal service.
